

# Library Project List

RWB has provided MEP consulting services to many different cities and schools having completed over fifteen successful projects within the last few years. Our experience includes new construction, additions, renovations, and MEP system upgrades. RWB has designed multiple projects including primary and secondary schools, colleges and universities, and municipals facilities including libraries, fire stations, and recreational facilities. Many of our projects have received LEED certification ratings. This project list is tailored to all the library projects RWB has completed in the last five years.
